

PLANNING FOR THE RECOVERY Papers for Qualifications Begin

It took longer than expected when we started this venture but we are still very proud to be able to confirm an NZQA Accredited Export Qualification is now available in New Zealand and we are accepting enrolments NOW!

The Diploma has embedded a **Certificate in Export Enterprise** for those who are studying the Diploma but wish to exit following one year or alternatively learners at the Academy can register for **specific modules** if they do not want to complete a full qualification or just need a refresher. We have specifically targeted the weekends for these papers to allow for **minimum time away from the workplace**

A summary of the qualification is included over the page or you can log onto the website at www.exportacademy.ac.nz to check us out.

Our courses are specifically targeted for students already in the workforce and allow a blend of after hours learning and distance learning. Alternatively if you are looking for future employees with an export qualification and are looking to offer a scholarship we have students interested in taking up such opportunities.

HUGE REQUEST FOR SCHOLARSHIPS/CADETSHIPS

We are really looking for your help in providing **Scholarships** for your current staff or indeed future staff. This can be anything from an individual paper to the full Certificate or Diploma.

If you can help please call us or email info@exportacademy.ac.nz

Crafting and Building the Business of Export
